

## SELF DECLARATION ISO 26000

In accordance with the ISO 26000 Guidance on Social Responsibility and reviewed and documented with a 26K Review template.

The Dutch service sector is extensively and in all detail regulated by Law and agreements of the social partners.

*Compusense Business Avionics BV is a small organization and after having checked all of the ISO 26000 recommendations and the relevance thereof in our day-to-day business environment, we conclude that we have a minimal but essential impact on the contribution to the national and local societal development.*

Four areas to which we contribute with good conduct are

- Ethical Behavior
- Maintenance of sustainable employment
- Healthy, safe and challenging work & team climate
- Promoting continuous self development & inspirational team climate
- Adherence to all relevant national and international law & declarations and non-legal standards like ISO 26000 and 27000
- Promotion of societal wellness as the result of our company efforts
- Support of local societal initiatives and involvement in the improvement of the standard of living of people in developing countries

For further details on our social responsible behavior, please visit our website [www.compusense.nl](http://www.compusense.nl), which radiates our strive after transparency & ethical behavior and includes our mission statement, Code of Conduct and our Think Blue/Act Blue sustainable development program.

Oegstgeest (The Netherlands), April 2nd. 2013
